

Highlights.

Powerful TSI engine
With a power output of 230 PS for the GTI and 280 PS for the R, the turbocharged TSI engine of the Golf GTI delivers a smooth and exciting driving performance in all driving conditions.

Dynamic Chassis Control
With the DCC system, damping forces are selectively applied to each of the four wheels to optimise vehicle dynamics, offering a comfortable ride no matter the surface.

LED headlights
LED headlights are more efficient and generate illumination that is similar to daylight. The LED daytime running lights and dynamic turn signals also have a distinctive signature.

Active info display
A fully digital instrument cluster presents data and information about the vehicle directly in the cockpit via the 12.3-inch high-resolution display.

Infotainment system with Gesture control
Everything at your fingertips: the new Discover Pro infotainment system with its high-resolution 9.2-inch colour display features an extremely user-friendly interface and gesture control. What's more, rear seat passenger can now control the audio and navigation Information via the Volkswagen Media control smartphone app.

App-connect
Three innovative technologies allow you to integrate selected smart-phone apps onto your infotainment system's touchscreen: MirrorLink, Android Auto, and Apple CarPlay.

Dynaudio Excite Surround
The Dynaudio Excite Surround system features 8 speakers and a Subwoofer that have been perfectly matched to the geometry of the vehicle's interior.

Driving profile selection
The driving profile selector allows you to influence the drivetrain, steering and transmission of your Golf. That way, you can tune it to Your personal driving style.

Safety.

Proactive occupant protection system
This system reacts just before an impending collision by priming the seat belts and brakes, as well as automatically closing the side windows and sunroof.

Blind spot sensor with rear traffic alert
As you drive, the blind spot sensor with rear traffic alert warns you, within the limits of the system, about vehicles in your blind spot.

Aftersales.

Here are 6 reasons why regular maintenance with Volkswagen is important.

We know your Volkswagen best. Let us care for your car so you can enjoy greater confidence and safety while on the road.

For a worry-free experience, our Service advisors will call you once your car is ready.

By calling our booking hotline, you can be assured of prompt and reliable service.

Using manufacturer-approved engine oil, Volkswagen cars are engineered to perform well with longer service intervals of 10,000km.

Through our service booking system, we will ensure that your car is given priority when you send it in.

We only use Volkswagen original parts which offer great quality at affordable prices.

Volkswagen Warranty · 2-year or 100,000 km warranty, whichever is earlier
